Blue Mundane Tarot

Zoom

If you missed my TAROT deck's publication in Stuart Kaplans NEW Encyclopedia of TAROT, Volume 4, its not too late to see them. You can even OWN them. (Or they will own you, its a matter of conjecture for an adept to consider.)

22 major arcana and 76 minor arcana comprise the 98 card deck, plus a title card and an art card.

Comes in an elegant pouch of shining blue oriental cherry blossom brocade, and lined with matching blue velveteen with a blue satin ribbon drawstring.

Inside the pouch, you will find the mundane tarot deck encased in a light green silken wrapper.

The mundane TAROT is an updated version of the standard deck. The ideas behind the cards have been copied into today's terms.

The cards are half as large as an ordinary TAROT deck. They were designed small. Perfect for purse or pocket.
